

ENVIRONMENTAL SERVICES INDUSTRY TRANSFORMATION MAP

**FUTURE
ECONOMY**

More than 78,000 professionals and 1,700 companies keep Singapore clean and liveable. While demand for their services continues to rise, the industry needs to improve productivity, promote growth and create better jobs.

VISION

A vibrant, sustainable and professional environmental services industry for Singapore and growing cities.

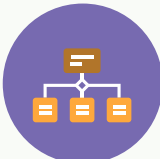

PILLARS OF TRANSFORMATION

JOBS & SKILLS

Promote a self-service culture and waste minimisation mindset to reduce service demand

Improve work tasks through job redesign and use of technology

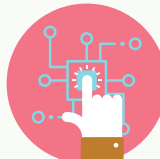

Develop internship, apprenticeship and scholarship programmes to attract talent to the industry

PRODUCTIVITY

Encourage adoption of outcome-based contracts

Drive procurement practices to focus on quality, technology use and productivity

INNOVATION

Create opportunities for technology collaboration and adaptation

Help companies access ready technology to develop new capabilities and address manpower challenges

INTERNATIONALISATION

Enhance export capabilities and market access
