

# FOOD SERVICES INDUSTRY TRANSFORMATION MAP

The food services industry has been offering a multi-cultural blend of flavours to local and global consumers. As more home-grown F&B companies establish their brands abroad, the industry needs to become more productive without compromising the food quality.

## VISION

To build a highly efficient industry that delivers quality food and provides better jobs.

## PILLARS OF TRANSFORMATION

### JOBS & SKILLS

Map out clear career progression and skills training paths through a skills framework

### PRODUCTIVITY

Automate dishwashing, cooking and other back-of-house operations

Adopt digital ordering and cashless payment systems

Set up of a central kitchen

### INNOVATION

Develop quality and nutritious ready-meal formats

Make food and beverages available via vending machines

### INTERNATIONALISATION

Grow the "made-in-Singapore" brand overseas

Enhance capabilities in intellectual property protection, and franchising and licensing

## EQUIP YOURSELF FOR THE FUTURE...

### Upskill and train the workforce:
