

# AIR TRANSPORT INDUSTRY TRANSFORMATION MAP

**FUTURE  
ECONOMY**

Many countries are working to be the air hub of choice. It cannot be business-as-usual for Singapore’s air transport industry. From air cargo handling to maintenance, repair and overhaul services, it needs to continue to be bold and forward-looking to stay head.

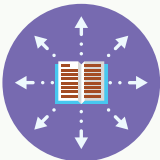

## VISION

To be a vibrant and quality air hub, providing better jobs for Singaporeans and delivering more efficient airport services

## PILLARS OF TRANSFORMATION

### JOBS & SKILLS

Expand education options for students

Ease entrance into aviation

Support professional growth

Share productivity gains

### PRODUCTIVITY

Accelerate use of technology

Redesign work processes

Encourage new ways of doing business

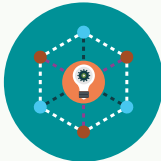

### INNOVATION

Pioneer novel solutions

Partner national research communities

Strengthen core capabilities

### INTERNATIONALISATION

Support enterprises to collaborate and develop new businesses together

## EQUIP YOURSELF FOR THE FUTURE...

### Upskill and train the workforce:

[Skills Framework for Air Transport](#)  
[Air Transport Study Awards](#)

### Enhance productivity with technology:

[EDB Productivity Grant](#)

### Boost capabilities through innovation:

[Areas for Innovation](#)

### Go global:

[Opportunities to Tap On](#)
