

AEROSPACE INDUSTRY TRANSFORMATION MAP

**FUTURE
ECONOMY**

Singapore's aerospace industry boasts one of Asia's largest and most diverse eco-systems with over 130 aerospace players and a growing satellite industry with more than 30 firms.

VISION

To be a globally recognised aerospace nation, capable of design, engineering, production and aftermarket services for the world's major aircraft programmes.

PILLARS OF TRANSFORMATION

JOBS & SKILLS

Upskill and reskill existing and displaced workers

Work with lead demand to train industry workforce

Prepare the future workforce

PRODUCTIVITY

Adopt automation and industrial IoT

Deepen manufacturing engineering capabilities

INNOVATION

Continue investments in developing public R&D infrastructure

Develop industry-relevant technologies

Provide regulatory support for new industry segments

INTERNATIONALISATION

Work more closely with industry associations to seize new growth opportunities brought by emerging global trends

EQUIP YOURSELF FOR THE FUTURE...

Upskill and train the workforce:

[Skills Framework for Aerospace](#)
[Aerospace Study Awards](#)

Enhance productivity with technology:

[EDB Productivity Grant](#)
[Productivity Solutions Grant](#)

Boost capabilities through innovation:

[Areas for Innovation](#)
[A*STAR Aerospace Programme](#)

Go global:
