

LOGISTICS INDUSTRY TRANSFORMATION MAP

**FUTURE
ECONOMY**

The logistics industry connects suppliers to manufacturers, and merchants to consumers, domestically and across borders. To stay ahead of increasing competition in the region, it needs to continue to excel and adapt to evolving business needs.

VISION

To be a globally leading logistics hub underpinned by operations excellence, innovation, and strong Singaporean enterprises and talent pool.

PILLARS OF TRANSFORMATION

JOBS & SKILLS

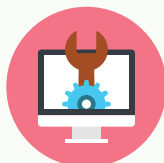

Develop strong pool of talent to support industry growth

Provide a guide on the career pathways, job roles, requisite skills and wages in the industry

PRODUCTIVITY

Improve domestic logistic system to optimise long-term resource usage

Strengthen Trade Associations and Chambers to be change agents

INNOVATION

Create accessible innovation eco-system with specialised research capabilities and supply chain decision makers

INTERNATIONALISATION

Boost enterprise level efforts to collaborate and transform

Continue to support Singapore companies in their overseas market expansion through Enterprise Singapore

EQUIP YOURSELF FOR THE FUTURE...
