

PROFESSIONAL SERVICES INDUSTRY TRANSFORMATION MAP

**FUTURE
ECONOMY**

Professional Services is a key growth sector for Singapore. To seize opportunities arising from the rapidly changing business environment, the industry needs to transform and be able to deliver new services and solutions.

VISION

A globally-leading Professional Services industry, driven by innovation and partnerships.

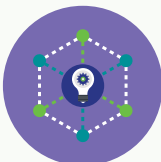

PILLARS OF TRANSFORMATION

JOBS & SKILLS

Redesign jobs to capture high-growth opportunities

Deepen employees' skills specialisations, and establish and refresh skills framework

Strengthen collaboration between firms, Institutes of Higher Learning and continuous education training providers

PRODUCTIVITY

Drive wider adoption of productivity tools

Catalyse collaborations between complementary service providers

INNOVATION

Create data-sharing partnerships and sandboxes in Singapore

Plug firms into national co-innovation living labs and consortia

Accelerate firms' innovation in service delivery via development of new solutions and business model transformation

INTERNATIONALISATION

Build globally-leading capabilities in high-growth areas

Expand firms' Pan-Asian market knowledge and networks

Increase profiling of made-in-Singapore solutions
